Cashew-Mango-Mix

A great combination of just two ingredients - sweet mangoes and roasted cashews. The cashews are unsalted and slightly roasted. The mangoes add an exotic touch to the mix. Two all-time favourites that make a perfect match.

Nut-Mix with chickpeas roasted, salted

Attention peanut lovers! The new snack mix combines crispy roasted and salted peanuts, aromatic smoked almonds and crunchy chickpeas for a unique taste experience. Whether relaxing on your sofa at home or enjoying a film night with friends – our salty nut mix is always the right choice. The nuts in the Snack Mix are of the highest quality and are gently roasted to bring out their full flavour.

Roasted Nuts & Cranberries

Even though our original Luxury Nut and Raisin Mix has proven utterly irresistible since the 70s, there are some who simply don't like raisins in the mix. Instead of sultanas, it contains fruity sweet cranberries. It also contains roasted cashews, roasted almonds and roasted peanuts. Enjoy this unique combination as the perfect snack between meals, at work or on the go.
