HEILEMANN awakens the desire for chocolate enjoyment in summer with a new summer edition

The summer edition, each weighing 80g, will appeal to all chocolate lovers who favour the combination of fruit and the fine chocolate: White Passion - very fruity with an exotic, refreshing flavour and vanilla in white chocolate Tasty Berry - refined with the tart flavour of fruity raspberries in fine whole milk Fresh Lime - fine fruitiness with a pleasant, natural acidity in fine dark chocolate.

An atmospheric Christmas season with two new seasonal ranges from HEILEMANN

The HO, HO, HO edition is one of the two eye-catching series. It combines modern design with a festive atmosphere and harbours wonderful chocolate & praline moments. The Merry Christmas Edition and Winter Pralinés are full of flavour and will make you melt in your mouth. In intense Christmas colours - sage green & blackberry - the stylish packs shine with gold effects.

Cappuccino nougat as a limited edition and a promise of pleasure & dolce vita

Flavourful, finely layered and irresistible: the new variety is also visually appealing. With its two layers of very light and dark nougat, the small praline is reminiscent of a delicious cappuccino topped with milk foam. The nougat gets its mild cappuccino flavour from finely ground roasted coffee and promises a little dolce vita when savoured - the perfect liaison.
