

Pulmoll Kalfany GmbH

Pulmoll. New „Immun+“

Pulmoll is well-known as a functional premium pastilles brand and meanwhile is distributed in around 30 export markets. Based on its wide assortment the brand features soothing, releasing and also refreshing properties. A new Pulmoll „Immune+“ couple has been successfully launched on the German home market at the beginning of last winter season. With Ginger-Lemon sugared and Multi-Fruit sugarfree it features two popular flavours in an eye-catching design. Both recipes include Vitamin C, B6, B12 and Folat which all contribute to the normal function of the immune system

KALFANY Crazy Drops

Great taste in dazzling packaging design. Kalfany offers a line of sugar free "Sweetly Sour" drops for children and young adults. Thanks to their eye-catching design the tins are mainly determined for Back-to-school and Halloween activity sales. The candies are packed in 50g pocket tins and come in 3 mouth-watering variants: Apple-Raspberry, Strawberry-Rhubarb and Red Berries. The state-of-the-art recipes are based on Isomalt as sugar replacer and feature Stevia as additional natural sweetener.
